

Santiago Gómez Acero

Full-Stack Developer · AI Products

Bucaramanga, Colombia · gomezacero2805@gmail.com · +57 324 6513682 · github.com/gomezacero · [LinkedIn](#)

PROFILE

Full-stack developer with production projects for real clients: multimodal AI campaign-generation platforms, certification systems with CI/CD and real-time conversational coaches. Specialized in React/Next.js, Astro, Node.js, PostgreSQL/Supabase and AI APIs (Claude, Gemini, Vertex AI). Systems Engineering student (UNAB, grad. 2027).

EXPERIENCE

Full-Stack Developer (freelance) — Confidential client — LaunchPro & Lía 2025 – present

- Built a platform that automates campaign launches on Tonic, Meta and TikTok Ads with AI-generated content (Claude, Vertex AI Imagen and Veo), cutting the workflow from hours to minutes. Next.js, PostgreSQL/Prisma, Docker and Cloud Run.
- Built a conversational English coach with real-time bidirectional audio (Gemini Live) and Claude-powered reasoning; Stripe subscriptions and PostHog analytics.

Full-Stack Developer — Hilong LCR 2025

- Bilingual multi-role certification platform in production: React 19, Express and PostgreSQL, with unit and e2e tests, GitHub Actions and continuous deployment on Cloud Run.

Web Developer & Designer — APROTEVID 2025 – present

- Led the institutional website: 400+ active users in the first months and direct coordination with non-technical stakeholders.

Web Developer & Designer — El Edén Condominio Campestre 2023 – present

- Commercial lead-capture site that contributed to selling 4 of 16 available lots; deployed and operated on its own hosting with domain and email.

SKILLS

Frontend: React 19, Next.js, Astro 5, TypeScript, Tailwind CSS

Backend: Node.js, Express, Hono, Laravel (PHP), Prisma, REST

Databases: PostgreSQL, Supabase (RLS), MySQL, SQL triggers

Cloud & DevOps: Docker, Cloud Run, Vercel, GitHub Actions, AWS, Git

AI: Claude API, Gemini Live, Vertex AI (Imagen/Veo), OpenAI, RAG

EDUCATION

B.Sc. in Systems Engineering — Universidad Autónoma de Bucaramanga (UNAB) 2023 – 2027 (in progress, 7th semester)

Artificial Intelligence Bootcamp — TalentoTech — MinTIC 2024 – 2025

ACHIEVEMENTS

- IngenioTIC Award 2022 — Software development contest (university transport mobile app).
- ULIBRO Award 2019 — Metropolitan Area public-speaking contest.
